

# Easy & Strong Video Encryption Software

# ABOUT E PLAYER

Video Encryption Software protects videos & other E-learning content by securely encrypting your content files and distributing them with your authorized target audience. It is a process of digitally hiding your videos to prevent unwanted interception and viewing of the transmitted videos.

The process involves encrypting videos using an encoding software and hardware to secure the content. No one can view the encrypted videos without first decoding them.

# Video Encryption Software Features:

## **Strong Encryption:**

The software encrypts your video content and allows you to securely distribute them to your authorized target users. The encryption system offers AES 256-bit encryption.

## **Video Playback Attributes:**

With encryption, you can configure Video Playback Time, Video Open Occurrences and Expiry date.

# Video Encryption Software Features:

## **Activation:**

Activation via various communication channels including Messaging, Online, and Email.

## **Single Screen Restriction:**

Restricts video to single / primary screen. No one can play on more than one screen.

# Video Encryption Software Features:

## **Aggressive Pricing:**

World Class Security Features  
at most affordable Pricing.

## **Distribute:**

Encrypted videos can be  
securely distributed on Cloud,  
USB-Pen drive, DVD.

## **Watermarking:**

You can trace any unauthorized use of  
your videos across the internet  
using **Watermark technique** on the  
encrypted videos.

# Video Encryption Software Features:

## **Video Analytics:**

Which video was played? When was it played? Video playback time  
Expiry date of video

## **Screen Capture Protection:**

Prevent anyone to record ongoing session via Screen Capture or Video Recording Software running in the background during a session and also prevent screen sharing via Skype, Team Viewer, and other similar tools.

# Who Can Use It

**Professors, Teachers, Lecturers, Tutors, Coach, Instructors, Trainers, Gurus, Businessmen, Specialists, Individual Professionals, Filmmakers and so on.
